Net loss	(4,688)	(6,752)

### ***Inventories***

Inventories, consisting of products available for sale, are primarily accounted for using the first-in, first-out method, and are valued at the lower of cost and net realizable value. This valuation requires us to make judgments, based on currently available information, about the likely method of disposition, such as through sales to individual customers, returns to product vendors, or liquidations, and expected recoverable values of each disposition category. The inventory valuation allowance, representing a write-down of inventory, was \$2.8 billion as of December 31, 2022 and March 31, 2023.

### ***Accounts Receivable, Net and Other***

Included in “Accounts receivable, net and other” on our consolidated balance sheets are amounts primarily related to customers, vendors, and sellers. As of December 31, 2022 and March 31, 2023, customer receivables, net, were \$26.6 billion and \$24.3 billion, vendor receivables, net, were \$6.9 billion and \$5.0 billion, and seller receivables, net, were \$1.3 billion and \$1.2 billion. Seller receivables are amounts due from sellers related to our seller lending program, which provides funding to sellers primarily to procure inventory.

We estimate losses on receivables based on expected losses, including our historical experience of actual losses. The allowance for doubtful accounts was \$1.4 billion as of December 31, 2022 and March 31, 2023.

### ***Digital Video and Music Content***

The total capitalized costs of video, which is primarily released content, and music as of December 31, 2022 and March 31, 2023 were \$16.7 billion and \$17.4 billion. The weighted average remaining life of our capitalized video content is 3.5 years. Total video and music expense was \$3.5 billion and \$4.0 billion in Q1 2022 and Q1 2023.

### ***Unearned Revenue***

Unearned revenue is recorded when payments are received or due in advance of performing our service obligations and is recognized over the service period. Unearned revenue primarily relates to prepayments of AWS services and Amazon Prime memberships. Our total unearned revenue as of December 31, 2022 was \$16.1 billion, of which \$5.3 billion was recognized as revenue during the three months ended March 31, 2023. Included in “Other long-term liabilities” on our consolidated balance sheets was \$2.9 billion and \$2.8 billion of unearned revenue as of December 31, 2022 and March 31, 2023.

Additionally, we have performance obligations, primarily related to AWS, associated with commitments in customer contracts for future services that have not yet been recognized in our consolidated financial statements. For contracts with original terms that exceed one year, those commitments not yet recognized were \$122.0 billion as of March 31, 2023. The weighted-average remaining life of our long-term contracts is 3.9 years. However, the amount and timing of revenue recognition is largely driven by customer usage, which can extend beyond the original contractual term.

### ***Acquisition Activity***

On February 22, 2023, we acquired 1Life Healthcare, Inc. (“One Medical”), for cash consideration of approximately \$3.5 billion, net of cash acquired, to provide health care options for customers. The acquired assets primarily consist of \$1.3 billion of intangible assets and \$2.5 billion of goodwill, which is allocated to our North America segment. The valuation of certain assets and liabilities is preliminary and subject to change.

Pro forma results of operations have not been presented because the effects of the One Medical acquisition were not material to our consolidated results of operations. Acquisition-related costs were expensed as incurred and were not significant.
