option to account for our equity investment in Rivian, which is included in "Marketable securities" on our consolidated balance sheets.

Required summarized financial information of Rivian as disclosed in its most recent SEC filings is as follows (in millions):

	Six Months Ended June 30,		
	 2021	2022	
Revenues	\$ — \$	459	
Gross profit	_	(1,206)	
Loss from operations	(990)	(3,287)	
Net loss	(994)	(3.305)	

Inventories

Inventories, consisting of products available for sale, are primarily accounted for using the first-in, first-out method, and are valued at the lower of cost and net realizable value. This valuation requires us to make judgments, based on currently available information, about the likely method of disposition, such as through sales to individual customers, returns to product vendors, or liquidations, and expected recoverable values of each disposition category. The inventory valuation allowance, representing a write-down of inventory, was \$2.6 billion and \$2.3 billion as of December 31, 2021 and September 30, 2022.

Accounts Receivable, Net and Other

Included in "Accounts receivable, net and other" on our consolidated balance sheets are amounts primarily related to customers, vendors, and sellers. As of December 31, 2021 and September 30, 2022, customer receivables, net, were \$20.2 billion and \$22.8 billion, vendor receivables, net, were \$5.3 billion and \$4.9 billion, and seller receivables, net, were \$1.0 billion and \$1.4 billion. Seller receivables are amounts due from sellers related to our seller lending program, which provides funding to sellers primarily to procure inventory.

We estimate losses on receivables based on expected losses, including our historical experience of actual losses. The allowance for doubtful accounts was \$1.1 billion and \$1.3 billion as of December 31, 2021 and September 30, 2022.

Digital Video and Music Content

The total capitalized costs of video, which is primarily released content, and music as of December 31, 2021 and September 30, 2022 were \$10.7 billion and \$16.3 billion. Total video and music expense was \$3.3 billion and \$4.2 billion in Q3 2021 and Q3 2022, and \$9.4 billion and \$11.4 billion for the nine months ended September 30, 2021 and 2022.

Unearned Revenue

Unearned revenue is recorded when payments are received or due in advance of performing our service obligations and is recognized over the service period. Unearned revenue primarily relates to prepayments of AWS services and Amazon Prime memberships. Our total unearned revenue as of December 31, 2021 was \$14.0 billion, of which \$10.1 billion was recognized as revenue during the nine months ended September 30, 2022. Included in "Other long-term liabilities" on our consolidated balance sheets was \$2.2 billion and \$2.7 billion of unearned revenue as of December 31, 2021 and September 30, 2022.

Additionally, we have performance obligations, primarily related to AWS, associated with commitments in customer contracts for future services that have not yet been recognized in our consolidated financial statements. For contracts with original terms that exceed one year, those commitments not yet recognized were \$104.3 billion as of September 30, 2022. The weighted-average remaining life of our long-term contracts is 3.8 years. However, the amount and timing of revenue recognition is largely driven by customer usage, which can extend beyond the original contractual term.

Acquisition Activity

On March 17, 2022, we acquired MGM Holdings Inc. ("MGM"), for cash consideration of approximately \$6.1 billion, net of cash acquired, to provide more digital media content options for customers. We also assumed \$2.5 billion of debt, which we repaid immediately after closing. The acquired assets primarily consist of \$3.4 billion of video content and \$4.9 billion of goodwill, the majority of which is allocated to our North America segment.

Pro forma results of operations have not been presented because the effects of the MGM acquisition were not material to our consolidated results of operations. Acquisition-related costs were expensed as incurred and were not significant.
